Especially designed to removing ink residues from printing screens, squeegee and other tools

PROPERTIES

Solvent LQ is a mix of low volatile solvents. Thanks to the special high-quality solvents contained in the product, fabrics and, above all, stencils (direct, indirect and mixed) are not damaged by LQ solvent even after repeated washing.

HEALTH & SAFETY

Besides its less acute smell, the LQ solvent offers other advantage as its use is very safe:

- It does not contain toxic solvents; it is benzyl, toluene, xilene – free.
- It is in compliance with law No. 245 – 05.03.63, arts. 2 and 5: ‘ no solvents containing benzol or toluene at a rate higher than 5 % can be used for the cleaning of printing tools. Over 3 % (up to 5% max) the product shall be classified as toxic.
- The packages labelling is in compliance with the Italian and EEC regulations.
